SUMMARY

Full Stack Developer experienced in JavaScript based programming with a passion for building practical, beautiful and well-performing applications. Enjoys the process of planning, creating and finding elegant solutions. Has strong skills in problem solving, visual thinking and teamwork. Sociable, organized, and drives for the best results.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6)

Front-End: React.js, Redux, Bootstrap, HTML5, CSS3

Back-End: PostgreSQL, JSON Web Token, Node.js

Software: Git, Github

Development Practices: REST API design, Agile, Web App Architecture (MVC)

ACHIEVEMENTS

Developers Institute Hackathon - 1st place recipient.

TECHNICAL PROJECTS

Memory Game - [Github](#) | [Demo](#)

A full stack educational multiplayer game to enrich English vocabularies.

- Designed a beautiful and clean user interface with React.js, including state management with Redux.
- Developed an efficient node.js server to handle data fetching and socket connections.
- Implemented a PostgreSQL database as the basis for the game's vocabulary.

BuddyBot - [Github](#) | [Demo](#)

A full stack chatbot app for entertainment and conversation.

- Created an extensive database of triggers and responses using PostgreSQL.
- Developed a node.js server to handle inputs and filter responses.
- Incorporated media from various public APIs to enrich the app and enhance interactivity.

EXPERIENCE

Program Director - International MA program

Tel Aviv University

Tel Aviv, Israel

2013 - 2021

- Implemented a formal education program by forecasting requirements, and verified its success.
- Devised corrective actions to course modules to ensure a quality experience for customers.
- Produced events and activities alongside a team of coordinators and responded to issues in real-time.

Administrative Director

IES Medical

Tel Aviv, Israel

2010-2011

- Managed the foreign residents department and verified that policies are issued quickly and accurately.
- Facilitated efficient customer support services to achieve maximum client satisfaction.
