SUMMARY

Full Stack Developer experienced in JavaScript based programming with a passion for building practical, beautiful and well-performing applications. Enjoys the process of planning, creating and finding elegant solutions. Has strong skills in problem solving, visual thinking and teamwork. Sociable, organized, and drives for the best results.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6)

Front-End: React.js, Redux, Bootstrap, HTML5, CSS3

Back-End: PostgreSQL, JSON Web Token, Node.js

Software: Git, Github

Development Practices: REST API design, Agile, Web App Architecture (MVC)

TECHNICAL PROJECTS

Memory Game - [Github](#) | [Demo](#)

A full stack educational multi-player game to enrich English vocabulary.

- Designed a beautiful and clean user interface with React.js, including state management with redux.
- Facilitated an efficient node.js server to handle data fetching and socket connection.
- Implemented a PostgreSQL database as the basis for the game's vocabulary.

BuddyBot - [Github](#) | [Demo](#)

A full stack chatbot app for entertainment and conversation.

- Created an extensive database of triggers and responses using PostgreSQL.
- Developed a node.js server to handle inputs and filter responses.
- Incorporated media from various APIs to make the app enriched and interactive.
